

## **HARDENER 3399 FOR DURAKOTE INT PU TOPCOAT CLEAR GLOSSY**

<b>Type</b>	:	Isocyanate Hardener for two components PU
<b>Field of Application</b>	:	It is used for mixing with the base component of PU finishes for wood and furniture, coatings for plastics, anti-corrosion coatings and chemical resistant coatings.
<b>Technical Data</b>	:	
Specific gravity	:	0.95 ± 0.02
Colour	:	Colourless
Mixing ratio	:	As per recommendations given in the base paint technical data sheet
<b>Directions for use</b>	:	It should be mixed thoroughly with the base paint in the recommended ratio. Further dilution of hardener or contamination with oil, varnishes will adversely affect drying/hardness of PU Lacquers.
<b>Directions for storage</b>	:	Keep the cans tightly closed in a well ventilated moisture free place. Use anti-sparkle equipment and no smoking during handling and storage
<b>Health &amp; Safety information</b>	:	Please refer to our Material Safety Data Sheet
