

SLEEK WOOD STAINS FOR INTERIORS / EXTERIORS

Sleek Interior Wood Stain is a penetrating stain based on metal complex dyes dissolved in fast evaporating solvent.

The wood stain has to be always top coated with a suitable lacquer to give a long lasting appearance for years to come. Apply by spray, brush, roller coater on all types of indoor wood work and furniture. It can be used as a color correction agent to intermix with N.C. Clear Lacquers.
